The objective of the Graduate School of Physical Education at Kyung Hee University is to contribute to the enhancement of public health by educating intelligent and professional leaders who are expected to lead Physical Education in Korea. There are three majors in the Graduate School such as Sports Industry and Management, Sports Science and Medicine, and Sport Studies and Taekwondo. We have a wide range of useful facilities that help students attain general understanding of Physical Education. The Graduate School has continually developed the curriculum with reflection of fast changes of society. As a prominent Physical Education leader, the Graduate School of Physical Education at Kyung Hee University has been leading new trends and methods of instruction. We are trying to continuously develop new concepts of Physical Education.

Degree Requirements

- The curriculum of this Graduate School consists of general subjects and major subjects.
- Lectures consist of common lectures and specialized lectures that can be combined with seminars, special lectures, group discussions, team teaching, and soon.
- For the Master's degree, students are required to take at least 24 credits and to pass at least five subjects (general major : 2, instruction for grade paper: 1).
- For the Ph.D., students are required to take at least 36 credits and to pass five subjects (general major: 2, instruction for grade paper: 1).
- Credits taken in the semester may not exceed 9 credits in the Master's program and 12 credits in the doctoral program. We do not give credit for a pass-and-fail grade. However, Masters of the foreigners who can complete 12 additional credits.
- A certificate acquired at the Universities which are sharing a friendly relationship with Kyung Hee University is accepted. One or two subjects are accepted depending on the length of instruction at these schools.
- To get a credit, students must attend over two thirds of the whole length of a lecture with the grade higher than C^o (points 2.0).
- For those who enter the master's program after finishing the courses at this University, twelve credits that the student received in the courses can be admitted upon the approval by the director of the Graduate School.
